

Technical Data Sheet

Release Agent Liquid

Product	This Release Agent is a blend of clear liquid designed for releasing Slate Impression Mats from the concrete, to enable the imprinting of patterns and eliminating the possibility of the surface of the concrete adhering to the mats, resulting in excessive surface defects.	
Usage	For the application of Slate Impression paving.	
Benefits	Eliminates the possibility of the surface of the concrete adhering to the mats, resulting in excessive surface defects.	
Coverage	Approximately 14 sq mtrs per litre.	
Package	10 lt pail clear only.	
Storage	<ul style="list-style-type: none">• Store in cool dry area and out of direct sunlight.• Avoid wet, damp or humid conditions.	
Shelf life	Approximately 18 months, providing stored correctly and unopened.	
Handling	<ul style="list-style-type: none">• Wear suitable protective equipment.• Avoid contact with skin and eyes.• Avoid breathing vapours.	
Properties	Appearance:	Colourless liquid
	Odour:	Hydrocarbon
	Flammability:	Flammable
	Solubility in water:	Insoluble
Equipment	Airless spray unit. To clean use water.	
Precautions	Prior to the application it is advisable to protect walls and structures to avoid risk of possible staining. Ensure all excess contaminations do not enter into water ways, drains or other storm water facilities.	
Application	<ol style="list-style-type: none">1 After Statop™ Coloured Surface hardener has been applied and trowelled in the traditional manner and the concrete is ready for stamping. Using a spray unit, firstly apply an even coat of liquid Release Agent on the Mats.2 Then apply a light coat on the job working approximately 5 to 6 sq mtrs at a time. DO NOT allow the Liquid Release agent to pool.3 Place your mats as normal and stamp. If a mistake occurs while stamping, the concrete can be re-trowelled and the Liquid release agent re-applied and stamping can be continued.4 No washing is necessary prior to sealing. Apply StaSeal™ sealer as recommended on the Data Sheet or label to protect the surface and enhance the colour.
